

VisuCon-F Frozen Normal Control Plasma
VisuCon-F Frozen Abnormal Control Plasma
VisuCal-F Frozen Calibrator Plasma

Analyte/Parameter Testing by Pasma:

Analyte/Parameter	VisuCal-F Frozen Calibrator Plasma	VisuCon-F Frozen Normal Control Plasma	VisuCon-F Frozen Abnormal Control Plasma
Fibrinogen (Claus Method)			
Factor II			
Factor V			
Factor VII			
Factor VIII			
Factor IX			
Factor X			
Factor XI			
Factor XII			
Antithrombin activity			
α ₂ -antiplasmin			
Plasminogen			
Protein C activity			
Protein C antigen			
Protein S activity			
Protein S total antigen			
von Willebrand Factor antigen			
Ristocetin Cofactor			

Introducing...

Affinity Biologicals Inc. (ABI) is pleased to announce the expansion of our In Vitro Diagnostic product line to include the new VisuCal-F™ Frozen Calibrator Plasma and the VisuCon-F™ Frozen Normal Control Plasma and the VisuCon-F™ Frozen Abnormal Control Plasma.

Background:

Calibrator and control plasmas are essential components of clinical, research and industrial laboratories where coagulation assays are performed. To ensure accurate results, consistency and reliability of all reagents is critical. ABI is widely recognized as a manufacturer of quality factor deficient plasmas and with our new VisuCal-F™ and VisuCon-F™ plasmas we apply our knowledge and experience to a new group of products.

Features:

- ❏ **A complete line of plasmas for the calibration and quality control of coagulation and fibrinolysis assays**
- ❏ **Prepared from pools of citrated plasma from a minimum of 20 donors to ensure variability within and between lots is reduced**
- ❏ **Values standardized to SSC-ISTH Secondary Coagulation Standard (where available), which is traceable to WHO International Standards**
- ❏ **For use with all instruments and reagents**
- ❏ **Stable for 8 hours at 2-8 °C after thawing** (all parameters tested except Protein S activity in VisuCal-F, which is stable for 4 hours)
- ❏ **25x1mL and 5x1mL package sizes offered for all three products**

Purchasing Information:

VisuCon-F™ Frozen Normal Control Plasma Cat No.

25x1mL package size	FRNCP0125
5x1mL package size	FRNCP0105

VisuCon-F™ Frozen Abnormal Control Plasma Cat No.

25x1mL package size	FRABP0125
5x1mL package size	FRABP0105

VisuCal-F™ Frozen Calibrator Plasma Cat No.

25x1mL package size	FRSP0125
5x1mL package size	FRSP0105

AVAILABLE IN CANADA & UNITED STATES FROM:
